

Jewel In The Crown

Inspirational Jewellery

Did you know that you can add an income stream from redundant space in your hotel?

PRESTIGE HOTELS

Country House Hotels

It adds value for your guests, offering them a unique boutique shopping experience from the comfort of their hotel.

Traditional or Contemporary

Did you know that we are specialist hotel jewellers, but we are one of the few remaining jewellers to have our own master goldsmith working at our premises in Haslemere.

It's for the couple looking to purchase that special momento of their anniversary weekend.

It's for the guest who has forgotten their cufflinks
for that important next day wedding.

It's for those who simply want to browse while
enjoying an afternoon tea.

ALL THAT SPARKLES

It's for the business traveller looking to buy a gift
for someone special.

Solid Bronze in Nature

We can transform that disused cabinet of your own or install one specifically designed for your hotel.

Did you know that, as well as private commissions, we have carried out restoration work for the V & A Museum and one of our necklaces was worn by Kate Winslet in the film Titanic?

We can produce bespoke pieces for hotels and have carried out commission work for many of our clients.

Benefit from our flawless customer service and
our many years of experience working in
hospitality.

There is no long term commitment by the hotel.

We are so confident that we can offer you an excellent service that we are happy to work on a month to month basis.
